

Dear Educator:

Greetings! It's not too early to start thinking about a fall field trip for your class to Middle Harbor Shoreline Park. Our **new interpretive programs have been made possible by full funding from the Port of Oakland**. We thank you for being some of the first teachers to enrich your students' lives with a field trip to Middle Harbor. We are proud to report that in the 2009/2010 school year **we served over 2,500 West Oakland students** with educational programs making science and Bay ecology fun and relevant to their lives! We look forward to having your class on a field trip this coming fall. We are also pleased to provide you with a pre-trip presentation to help prepare your students for what they will be learning. I look forward to working with you!

Enclosed you will find:

- Program Reservation Application Form
- Fieldtrip Descriptions
- Bus Application

Follow these steps to successfully schedule a program:

1. **Fill out a Program Reservations Application.** Please thoroughly complete this **yellow** form by marking the program you are interested in. Team up with another teacher that teaches the same grade so you can meet the minimum number required to receive a FREE BUS (Thanks to Port of Oakland). *see details on yellow application form & Bus Application Form*
2. **Turn in your Bus Application ASAP!** In order to increase the odds of getting a FREE bus for your field trip this coming fall you will need to turn in a bus application **as early as possible**. Buses are scheduled in the order applications are received.
3. **Get your Program Reservation Application in by the deadline: Friday, Aug. 6th.** We have enclosed a pre-addressed envelope for your convenience. Don't forget to include a self-addressed stamped envelope along with your application. Applications received after the deadline will be scheduled as program openings remain available.
4. **We will begin calling teachers** the week of Aug. 9th to book programs.
5. Once your field trip is scheduled and you have transportation confirmed, **you will receive a confirmation letter and a pre-trip information packet**. Please double check the time and date of your program on your confirmation letter.
6. Once you have a confirmed bus and date for your fieldtrip to Middle Harbor make sure you fill out the appropriate OUSD paperwork to request permission to go on a field trip. You will need to **turn in this paper work at least 30-days in advance of your scheduled field trip**.

I look forward to seeing you and your students at the shoreline this spring and for many years to come.

Sincerely,
Tara Reinertson, Naturalist
Middle Harbor Shoreline Park
